LUCKY IN LOVE

When you say that you love me I can feel that it's true
You're lookin' straight into my heart and I'm seen' into you
The years spent together have not washed us away
But the sand on the shore we move with every day

Fear has no place in this love that we've found
When it shows its face we don't let it hang around
I don't know if good fortune comes from heaven above
But I know we're lucky, so lucky in love

I walk around singin' a smile on my face
Got a grin for everyone I meet
Folksy just how little love it takes
To melt the frozen faces on the street

Fear has no place in this love that we've found
When it shows its face we don't let it hang around
I don't know if good fortune comes from heaven above
But I know we're lucky, so lucky in love

Now, Uncle Frank he tells me that the world's a sorry place
And I know that the believes it's true
And I can read the whole sad story in the lines on his face
And I love him cause it's all I can do

But early in the mornin' when I think about the day
And wonder what good it will bring
The mirrors shapers a secret of this sparkle in my eye
And I know that it's a beautiful thing

Fear has no place in this love that we've found
When it shows its face we don't let it hang around
I don't know if good fortune comes from heaven above
But I know we're lucky, so lucky in love
Yes we're lucky, so lucky in love

ALONE AT LAST

Put down that heavy load that you carry around
Most of it don't belong to you anyhow
Let me help you with that be
It's been pulling you down
You've been bound by the life that leads you around

I don't care about yesterday
Cause we don't live in the past
Tomorrow is tomorrow
But don't make it come too fast
Cause we're alone at last

Sip a glass of summer wine slide to my side
Sip for all the sorrows as they ease on by
Drinking in the fire-side with the mantle above
Houling all the touchstones of our love

I don't care about yesterday
Cause we don't live in the past
Tomorrow is tomorrow
But don't make it come too fast
Cause we're alone at last
Let's really make our time together
Float us to a distant shore

Tell me what your heart's been hearin'
And I will listen too
Tell me where the hours have gone
Since I've been with you

Any moment we're together is the perfect time
Stop the watch on the world outside
Let time unwind

I don't care about yesterday
Cause we don't live in the past
Tomorrow is tomorrow
But don't make it come too fast
Cause we're alone at last

IF I HAVE THE EYES

The bloomin' rose outside my window
Tells me that we're finally in spring
I wake up with a brand new song beebin' in my heart
And joy that I get a chance to sing

And these days go by
With magic I just watch them fly
Out over the edge of the horizon
And I can change my mind
Turn this darlness into beautiful
And let my life become a sweet surprise
If I have the eyes

The Quiet of the evening comes in colors
With just a touch of Venus shimmering through
Can that really be a golden glow that hangs above the sea?
I slide the curtain for a better view

And as I slip into a slumber
Feel my tired soul begin to ease
I pull up underneath my chin the silent sacred stars
A blanket that comforts me in peace

And these days go by
With magic I just watch them fly
Out over the edge of the horizon
And I can change my mind
Turn this darlness into beautiful
And let my life become a sweet surprise
If I have the eyes

METROPOLITAN AVENUE

When the weatherman calls for rain
Wear your slicker or still retain
Your sunshine stance
Make romance with the waterfalls

When the radio plays the news
You can buy it or just refuse
The call of doom
Don't assume that it's meant for you

Takin' it slow
Watching the picture show
The silver screen isn't all that it seems
Find your own dreams
On Metropolitan Avenue
Or in the country where the birdsong wait
Don't hesitate to cultivate the hieño

FOR NOW LET'S DANCE

Sometimes our life feels just like some old foreign movie
We dressed in satin and rustling wherever I go
You in a top hat and tails, a cigarette holder
Pensively puffing and killing yourself nice and slow

But for now let's dance...the moon she is high above
It won't last forever but right now the night is for love

The clink of the glasses that holds magic potions like music
Sounding like bells in the plaza the night that we meet
Dizzy and giddy with their imagine and bubbling laughter
We're young and and their aerts startin' to bother us yet

So for now let's dance...the moon she is high above
It won't last forever but right now the night is for love

Of course there are others who won't take a chance on the moon
We'll be paying the piper but hoping the bill won't come soon

Dancing in shining shoes on the brink of disaster
Holding each other and playing a life of pretend
All we can do is keep time to the beat and move faster
But heaven is here in your arms dear from now till the end

So for now let's dance...the moon she is high above
It won't last forever but right now the night is for love

RIDE THE MOON

Long ago I heard it said
You can't think only with your head
It's got to be your heart that cal's the dance
And I remember now back when
My heart became my first best friend
When I learned to love the world and take a chance

We'd ride the moon through the midnight skies
Laugh with the stars that watch us shine
As we go spinin' by
We hear the music that spirals far and wide
We're lifted up by love's sweet magic tune
We ride the moon

Then one day I saw you there
Smiling, playing on your hair
River flowin' deep inside your eyes
I called your name you heard my voice
It was then we made the choice
To leave the tired earth and find the skies

We ride the moon through the midnight skies
Laugh with the stars that watch us shine
As we go spinin' by
We hear the music that spirals far and wide
We're lifted up by love's sweet magic tune
We ride the moon

Some say dreams all come to nothin'
When they've never even tried

We ride the moon....

SEASIDE

When the sun comes out in Seaside
Folks turn their flower faces to the sky
Down the last dark dregs of their espresso
And send their spirit soaring with a sigh

It's not as if the rain can last forever
It's not as if the clouds can crush you down
You'll never hear a rumble of resentment
They wear their weather like a thorny crown

And when the sun shines down on deep green ground
Through the clouds that part on high

It's enough to make you feel there is a God
And you could fly if you care to try

When the sun comes out in Seaside
Little children laugh and dance and sing
Grownups all turn off their CNN
And realize it doesn't mean a thing

When the sun comes out in Seaside
It's more than just another day
It puts a sparkle in the people's eyes
They see the world in a different way

JUST A DANCE

Our gracious love swingin' in circles as seen from above
Round and round, round and round, round and round, we go
Please take my hand, it's reassuring and somehow so grand
I don't know where this will lead or how well get there
But let's go

I know it's just a dance, but what a dance we're having
Movin' one step at a time
Back and forth, holdin' on together
Dancin' in three-quarter time

Dancin' with you just makes me giddy so what can I do?
But laugh along, hum a song or two
We float through the blue
Moving to music we feel through and through
Holdin' to the nights we knew
Of ballrooms and dreams long ago

I know it's just a dance, but what a dance we're having
Movin' one step at a time
Back and forth, holdin' on together
Dancin' in three-quarter time

I KNEW YOU WHEN

I knew you when you were a pampered child
Out dancin' wild setting the fields on fire
I knew you when you had no money left
Could't pay the rent, holes in your shoes

You were movin' into that lighted space
Walkin' round with no place to go
I can still remember that look on your face
Like a curtain fallin' after the show
But look at you now

I saw you move into that lighted space
Saw your tired face wake from a dream
And then I knew that I was sleepin' too
That the world we knew was not what it seemed
We were both together in a twilight rain
Afraid of the dark

Then the sun broke through
And in the golden glow we knew
The world turns on a change of heart
And look at you now

Now we know it's true and in everything we do
The world turns on a change of heart
And look at you now
